

REMARKS

Claims 14-38 are pending in this application. Claims 1-13 have been canceled.

The new claims are supported by the CIP application recited in the amendment above, but not the earlier application, and accordingly the priority claim has been amended hereby. For example, support for the term "interpolator" can be found, in one embodiment, in the interpolators shown in Fig. 10, and the discussion on page 19 of multiple interpolator systems or chips.

Attached hereto is a marked-up version of the changes made to the specification by the current amendment. The attached page is captioned "Version with markings to show changes made". If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,
